

AI25 Palm Coupling Air Line Lock Instructions

Note.

For use on the red airline of trailers fitted with a palm coupling.

1. With the lock in the unlocked position and with the open face of the palm coupling facing the lockhousing, push the coupling fully into the receiver.
2. Once in place, push the lock down into the locked position.
3. To remove the lock, insert the key and rotate $\frac{1}{2}$ turn and pull on the key, slide the coupling away from the receiver.

We have taken every care in the design and manufacture of this security device and we believe that it is an effective deterrent. However we cannot guarantee that it will resist the efforts of the most determined thief, and as such we do not accept any liability for loss or damage caused by theft, vandalism or other illegal activity against property to which this device is fitted.
